TITLE \_\_\_\_\_

From Page No. \_\_\_\_\_

The gel was run.

Result:

- Tag 2 U / 50 pg yield

- this running still under these conditions

- Higher conc of Dsp in the presence of Tag no product

- 0.02 U + 2 U Tag

- no products either

- but with 0.01 U + 200 pg Tag plenty of product

Is this Dsp went too far mistake in diluting ??

- check again w. new Rx
